

Preventative Maintenance

It is the policy of Karson Builders Ltd. to maintain all tools, vehicles, and equipment in a condition that will maximize the safety of all personnel and remain in accordance with Section 11 of the OH&S Regulations.

To accomplish this, Preventative Maintenance Program shall be maintained and shall include the following components:

- Adherence to applicable regulations, standards, and manufacturer's specifications.
- Services of appropriate qualified maintenance personnel.
- All tools and vehicles will be inspected as per company regulations. If found to be in need of repair will be immediately removed from use, tagged and sent for repair or replacement.
- Scheduling and documentation of all maintenance work will be maintained and documented. The supervisor shall be responsible for the application of the program in his/her area of responsibility.

All tools are to be inspected as they are checked out from the shop and repaired or serviced in accordance with the manufacturer's specifications.

The information in this policy does not take precedence over applicable government legislation, with which all employees should be familiar.
